15% OFF

Bulk Order SALES

Mar.1st 2024 – May 31st 2024

Big Savings in Bulk from MCE

Save **15% off** your entire order when you buy in bulk from MCE from March 1st, 2024, to May 31st, 2024. Now is the time to buy more and save more.

- High-quality
- Unbeatable prices
- Fast delivery
- Flexible bulk sizes save more

Please note

- This promotion is valid from March 1st, 2024 to May 31st, 2024.
- This discount cannot be used in conjunction with any other discounts or offers.
- This promotion is applicable to large sizes (except for regular sizes listed on our website) or customized synthesis products in MCE.
- This promotion is applicable to Europe and the Asia-Pacific region. To see if your region is eligible for this promotion, please send us an enquiry for bulk-size products via email.
- If you have any further questions, please contact our marketing team at marketing@medchemexpress.com

MCE Top Selling Products

01.

High Purity Small Molecules

Inhibitors & Agonists

60,000+ selective compounds for 1,000+ different targets and 20+ hot signaling pathways.

Natural Products

10,000+ natural products including flavonoids, alkaloids, quinones, phenols, terpenoids, steroids, etc.

Isotope-Labeled Compounds

7,000+ Isotope-Labeled compounds with high purity and high isotopic enrichment.

Fluorescence Dyes

1,500+ molecular probes and dyes, used for *in vitro* and *in vivo* studies

GMP Small Molecules

60+ GMP small molecules are used for CGT product research and development, providing application audit support.

Reference Standards

300+ reference standards (analytical standards) are tested under the ISO 17025 system.

02.

Small Molecules for Specific Purposes

- Click Chemistry Products
- Induced Disease Model Products
- Biochemical Assay Reagents
- Proteolysis Targeting Chimeric Molecules (PROTACs)
Improve the Druggability of "Undruggable" Targets
Contain PROTAC, SNIPER, AUTAC, ATTEC, Molecular glue, etc.
Provide one-stop service platform for synthesis of PROTAC components, bioactivity testing, analyses, and technical support

03.

High Activity Biological Large Molecules

Recombinant Proteins

11,000+ purified recombinant proteins with excellent lot-to-lot consistency, optimum bioactivity and significantly low endotoxin level.

Peptides

6,700+ high-quality tag peptides, amino acid derivatives, blocking peptides, and bioactive peptides.

Inhibitory Antibodies

1,000+ monoclonal antibodies with specific bioactivity and high stability for *in vivo* research.

Oligonucleotides

30,000+ oligonucleotides including antisense oligonucleotides (ASOs), siRNAs, miRNAs, CpG ODNs, aptamer, etc.

Antibodies

1,000+ primary antibodies, including monoclonal antibodies, polyclonal antibodies, tag antibodies, control antibodies and loading control antibodies.

04.

250+ Ready-to-Use Kits

- Nucleic Acid Electrophoresis, Vector Construction
- Protein Sample Extraction, Detection, Purification
- 3D Cell Culture & Cell Analysis

05.

MedChemExpress One-Stop Drug Screening Platform

- 200+ Ready-to-Use Compound Libraries
- Diverse Compound Libraries
- DEL Synthesis and Screening High-throughput Compound Library
- Virtual Screening Customized Libraries
